I think u need to be made aware of a few things
Were you aware Heide is living in a schoo bus on the back of there property woo d stove not inspected for safety . The children bath at any
Neighbor that lets them in .When the kids are sick she makes
Them hid under the desk . She palms them off on neighbors so she doesn't have to get care for them so she can help work on the house.
They have no normalsey in their lives but relays on neighbors to care for , feed them even bath them not fair for the neighborhood. She has even sent dirty dishes for neighbors to wash. Is this the type of person u want representing missoula
