The fall of empire is sequential. Demoralization. Destabilization. Crisis. Normalization.

These terms, or "platitudes" - "Justice, Equity, Diversity, Inclusion" are exactly the type of terminology used by the Socialist genocidal regimes of the 20th century.

Between the Marxist liberal and social-democratic governments of Bolshevik Russia, via Lenon, Trotsky & Stalin....almost 65 million "common-folk" were starved to death, murdered & decimated.

Maoism is estimated to have killed upwards of 500 million, the official numbers claim roughly 70 million. All of this killing was done under the auspice of Socialist style World Communism.

If you do not know this, you are functionally illiterate. You must stop George Soros & his globalist think-tank agenda from destroying Montana. Have you no soul? No spirit of transformative majesty within you? Good goddess people please wake up!!

If you don't stop this now, you are putting yourselves at risk, your families at risk, your neighbors at risk, your community at risk, and this city at risk. I appeal to you now!! DO NOT REPEAT HISTORY! DO NOT.

With immeasurable concern,

Brandon Zimmer
