Missoula Parks and Recreation Press Release
For immediate release through June 28, 2021

Residents invited to community center open house, public opinion survey

Missoula Parks and Recreation is hosting in-person and virtual open houses and has posted an online survey to solicit residents' ideas for a new community center in McCormick Park.

Residents are invited to the community center in-person open house on Thursday, June 17, from 4:30 to 7:30 p.m. at McCormick Park. Childcare for ages four and up will be available from 5:30 – 7:30 p.m. at the drop-in-style event. Participants will help develop the project vision, learn about the planning process, meet the project design team and discuss which amenities, services and spaces they would like to see in a community center.

For those unable to attend the June 17 event, Parks and Recreation is hosting a virtual open house at www.engagemissoula.com from June 18 to July 1. Residents may also complete the public opinion/needs survey at engagemissoula.com through June 28.

Please see the attached press release or read it online.
