To Whom It May Concern,

Do not hire Six Pony Hitch. We do not need more research to verify BIPOC experience. We need action. And we don't need white people to be paid more to solve this problem, any solution should be LED by BIPOC. Black, Indigenous, People Of Color. Listen to the people in your community actually experiencing this. Invite incarcerated or formerly incarcerated POC; victims of the Missoula police force and carceral system, to an over the phone interview. It would be wise to see what would make them and their families feel safer and more provided for. Take out the root of the suffering, you don't need to have research led by a white organization. Ask the people themselves.

With utmost concern,
Andromedae Jackson
