Dear Missoula City Council,

I'm disappointed that the council has chosen a PR firm to lead in this historic moment. While the intention may be to appear receptive to BIPOC voices instead it is very apparent that the Council wants a certain 'story' filtered through an acceptable lens. BIPOC folks in missoula have been speaking out already, during the protests in early June, before them, and after them. It's clear that we need systemic change not the hiring of a PR firm.

Thank you for your hard work, but it will take more than the usual response to rise to this occasion.
