I am a member of Common Good Missoula and a participant in the Missoula Home Coalition. I want to thank each and everyone of you for your time and attention regarding the Affordable Housing Trust Fund with special thanks to all who met with us in the past couple of weeks. I believe we all agree that, although it's just a beginning, this is a major step forward we are taking together. Please pass the Affordable Housing Trust Fund with consideration of our amendment requests as listed below.

1) Councilperson West's amendment for an oversight committee (rather than advisory committee)

2) Among the total members of the Oversight Committee the following minimum parameters being met, with one person able to represent more that one requirement:

- 1/2 (plus one) of the committee being community members.
- 1/3 of the committee being community members who have received housing assistance in the past two years.
- 1/3 of the committee being Black, Indigenous, or other people of color

3) Oversight committee representation from a housing related nonprofit coalition, a citizen-based housing advocacy group, a person who has previously been incarcerated, a professional in the field of housing real estate, a professional in the field of residential banking/lending, a person representing a disability rights group. The administrative policies and procedures shall only be changed or updated in the future as informed and approved by a majority vote of the Oversight Committee

4) Anti-racist framing on the housing trust fund overall
