Hello Councillors, I Hope you're well.

I'm reaching out to let you know that the company I represent has available FDA approved N95 masks by 3M, Sunfire and BYD, as well as KN95 and 3 play masks; please note that they aren't medical device vendors, simply general resellers in Long Beach that buy and warehouse large lots.

This is a pivot for me, so pardon my use of this forum, but covid made my profession a bit tight for a while, and I'm working a bit outside the box, though I'll certainly do my best help you with your needs, reasonably, quickly and within your budget, with a lead time on bulk purchase of 6 to 10 days, and occasionally shorter.

Let me know what I can do for the City of Missoula; If you'd like more information, I'm happy to answer.

Thanks and regards,
