Subject: DOR Property Valuation for Personal Property Amounts
Date: Tuesday, August 4, 2020 9:40:45 AM

Regarding using DOR's website property valuations for personal property budget amounts is that the other items listed there can be a hybrid of real and personal valuations, so you don't really just know what is for personal property to use just that for your budget amount. That is my take on previous conversations I've had with our DOR field office on that.

Thanks,
