Hi,

I am a resident just a block away from where the temporary winter shelter is going to be for the homeless. i would like to know why the residents of the Franklin to the Fort neighborhood were not informed about this decision? I feel we were blindsided. This is an up incoming neighborhood with schools, parks, trail systems, businesses and families with small kids. I understand homelessness, but the bad element that comes with this is not right for this neighboorhood.. I feel that this decision is putting families and their kids at risk, and is unacceptable. Are there going to be higher levels of police presence due to this decision? Is there going to be extra security to police the nighborhoods and keep everybody in line so this does not turn into a disaster are like it is at the Poverello center?
