Council members,

I am writing to express concern and request information about the incident last night in which Missoula police shot and killed a person.

Is there any footage of the incident and will it be released? What attempts were made to de-escalate the situation? Could non-lethal force have been used to restrain the person who was killed? Was this person experiencing a mental health crisis and was anyone on the scene trained to respond to a mental health crisis? Will there be an investigation into how the officers involved handled the situation? Will the police be making any public statements about the incident?

Bebo Ruiz
Missoula Resident
