Dear Council members,

As a former 15-year member of the Missoula Open Space Advisory Committee and long time supporter of Five Valleys Land Trust, I am urging you to vote in favor of the city acquisition of land and trails on Dean Stone Mountain as presented by the Five Valleys Land Trust proposal.

This is an important connector and also wildlife protection area that is in keeping with the language of the Open Space Plan and bonds. From my many years on OSAC, I know you can trust that the members examined the proposal carefully before sending the recommendation to City Council.

I know my Ward 4 representative Ms. Sherrill will be a strong proponent, and I hope Mr. Ramos will join her in also voting in favor.

Thank you for your work to keep Missoula a healthy, peaceful, and beautiful city.

Ethel MacDonald, Ward 4
