Subject:	'I want these officers fired!' Outrage after police pepper-spray handcuffed NINE-YEAR-OLD girl in Rochester, New York (VIDEO) — RT USA News
Date:	Monday, February 1, 2021 8:31:01 AM

FYI,

Chief white is intentionally delaying Corporal pat malones Police officer and safety training council meeting regarding a misconduct complaint from a NOVEMBER 2019 event...

My ammo policy complaint on MPD was delayed indefinitely by "Missoula police commission"

I was recently hit as a pedestrian in a cross walk by a car at Higgins and main in broad daylight on 12/18/2020... MPD and city attorneys office (whom previously leaked my personal information and defamed me via) didn't appropriately ticket/charge the woman driving the car that hit me... the woman was not even taken out of her car for a field sobriety test, she was given a "failure to yield" ticket and fined $85 dollars (max is $100). municipal court staff tell me this is because MPD didn't even disclose a pedestrian was hit on the ticket!

It took me 3 days of calling Into municipal court at 8am to get an appointment with Judge Jenks (whom adjudicated the ticket).

Jenk and Jim Nugent all blame MPD..

There's seeming to be a lot off issues with MPD's (lack of) documentation and ability to follow their own policy... I can personally attest to the damage this cause, I am going physical therapy still for this event... I will Likely have to come out of pocket for damages to my cellphone and clothing/jacket because the city police and city attorneys office failed to ticket properly...

I'm purportedly I'll be Discussing this personally with chief white this Thursday !

I'll also be discussing the entire situation with my attorney regarding the City's continued personal attacks/defamatory statements made against me and discriminatory actions taken by various city staff and departments...

On a side note:
What amount of training to cops need to not pepper spray a 9year old girl, whom is handcuffed in the back of a car?

Any thoughts or observations from council members?

Thanks for all you vigilance.
