Dear City Council members,

Many thanks for the best news I have heard in a long time - that Missoula will partner with the County, Bozeman, and Helena to draft an option for customers to buy their electricity from newly developed renewable sources. Many of us have been pushing Northwestern Energy toward more renewables in their portfolio. This is great news!

Once this option is available, I would welcome information on how ordinary citizens with older homes heated by gas can transition to more climate-friendly electricity.

Keep up the good work!

Anne Greene
