Council Members:
I see that the Public Safety and Health Committee has voted to deny the resolution on firearm safety. I hope you will all vote against this resolution. The Committee report details the negative aspects of this resolution in detail. I heartily agree with the report.

I'm a retired educator, and I would like to stress that I am strongly in support of increasing gun safety and reducing gun violence. But the curriculum this resolution proposes, aimed at the youngest students, is not appropriate. I believe it would make students less safe, not more safe.

Again, I urge you to vote against the resolution. And Members Vasecka, Contos and Ramos, I strongly urge you to rethink your approach to this very important issue.

Thanks,
Daniel Wilcox
