Below is an email I sent to the Mayor and I want to include all city council members in this communication as well.

Hello Mayor Engen,

I am completely vested in assisting the homeless whether it be finding housing or other assistance. There are many women with and without children who are homeless and living in their vehicle. I would like to propose a "parking lot" for them. My idea would be to have a dedicated parking lot with restroom and shower facilities and security for safety. At each designated parking spot, there would be a grill and a picnic table so they can cook food to feed themselves and their family. It will take years to build enough affordable housing so this could be a temporary or permanent means to safety while providing services, if needed. Many homeless women have jobs and perhaps do not make enough money to afford the current market rate. I would be willing to have a meeting with you and/or the city council, work on funding/fundraising and be a support to this project.

Thank you in advance for your consideration.
