Subject: North side Hard-sided homeless camp
Date: Thursday, July 15, 2021 1:54:08 PM

You have got to be kidding me on this..the North Side is just getting to revamp and you want to do this to us. It will devalue our property but of course the taxes will keep going up so we can support this insane action. The is no shade in the summer so they will be going into the cemetery spreading their garbage everywhere. Our little homes will not be safe with drunks and drugies roaming everywhere. You have already approved apartments for this area why not single family homes so people can take pride in ownership. Build these under the Reserve street bridge. Lay down gravel and fence it in so they are forced to use this area only...they seem to like it there. You guys are more concerned about the homeless then you are on tax paying citizens. Don't encourage them to come and stay. If this passes I promise you this I will fight tooth and nail to get you guys off this council and I think a ton of people will follow me on this. Think before acting!
