Hello Mr. Shontz,
Thanks for reaching out. We do have some limited data from Missoula County, but unfortunately it's not as robust or detailed as that shared in the linked article. Montana James and our housing team are presenting this data, along with resources available to assist households facing eviction, this Wednesday in committee meetings. Here is a link if you are able to join. https://pub-missoula.escribemeetings.com/Meeting.aspx?Id=340dcaa3-2898-492a-908a-87d2ca2ceb98&Agenda=Agenda&lang=English

Subject: Eviction moratorium ending

Hello-

With the moratorium on evictions ending today, does anyone have a sense of how many Missoula residents will be impacted? Are there any data or estimates on how many folks will be evicted and how many currently housed people will become unhoused?

There are some pretty shocking numbers in this article.

https://www.nytimes.com/2021/07/31/us/eviction-moratorium-rent.html?

referringSource=articleShare

> The Census Bureau's most recent Household Pulse Survey, which captures the impacts of the pandemic, found that 3.6 million people thought it was somewhat or very likely they would be evicted within the next two months.

Thanks for all the work you do. It is seen and appreciated.

Thanks,
Nick
