---

Council members,
Late Friday afternoon I received the parcel level taxable valuations that I use to calculate the assessments for the business improvement district. I've completed the assessments for most of the district properties and added the draft BID assessment resolution and spreadsheet to your agenda packet today. The assessments are still draft because I haven't received valuations for the two centrally assessed properties from the Department of Revenue. DOR staff said they would get those numbers to me on Monday—so another update to the spreadsheet and the resolution will be forthcoming once I get those final numbers.
