Hi, this is Paul McCann. I live on 4414 Fox Farm Rd in the muzzle in the rattlesnake and I want to comment on the article about the marijuana shops. No problem with them being a certain distance apart but the fact that you want to take the opaque coverings at these shops is a direct violation of the privacy. The people that go in there regardless, legalization is a still a stigma for people who use marijuana. For instance, they don't want friends and neighbors to see them in the shop, and certainly the City Council has better things to do then that. Every business in town make their Windows 360 degrees visible and can record crime. I would really want to know what the crime statistics are for the hours that marijuana shops are open doing business and if any police reports have happened around the marijuana shops. Thank you.
