- Residential Medium Density - 3 to 11 units per acre
- Residential Low Density - 1 to 2 units per acre
- Residential Rural - Less than 1 unit per 2 acres
- Industrial Light
- Industrial Heavy

**Legend Note:**
- This map shows floodway only and not floodplain areas. For properties proximate to creeks and rivers, consult the floodplain administrator and floodplain maps for additional guidance and information pertaining to limitations on development.
- This land use map is a general visual representation of the goals outlined in the Missoula Growth Policy document adopted by Missoula City Council on November 23, 2015. It is not a zoning map.
- The zoning map reflects the zoning of individual parcels of land in the City and the associated zoning code (Title 20, Missoula Municipal Codes) establishes allowable uses, controls density and intensity of development, and sets development standards.
- Land use designations on this map are approximate and must be read in conjunction with the land use descriptions and policy statements found in the growth policy document. Any policy decisions based on these designations should consider site-specific conditions.
