In compliance with the Clean Water Act and the National Pollutant Discharge and Elimination System permit program—administered by the Montana Department of Environmental Quality as authorized by the U.S. Environmental Protection Agency—the City of Missoula must inspect construction sites based upon their priority ranking.

If your site is in a subdivision that has been approved per current standards, then it is automatically LOW priority and you do not need to complete the worksheet on page 2. If you are unsure, then contact the Engineering Desk at (406)552-6636 or engpermitdesk@ci.missoula.mt.us.

Site Priority Determination

Check the appropriate Project Priority box based on the worksheet total on page 2.

Score	Priority	Inspection Frequency	Project Priority
6 to 11	Low	1. Once at commencement of construction after BMPs have been implemented	
12 to 30	Medium	1. Once at commencement of construction after BMPs have been implemented	
		2. Once at the conclusion of the project prior to finalization	
31 to 67	High	1. Once at commencement of construction after BMPs have been implemented	
		2. Once within 48 hours, after one rain event of 0.25 inches or greater	
		3. Once within 48 hours, after runoff from snowmelt due to thawing conditions that cause visible surface erosion at the project site	
		4. Once at the conclusion of the project prior to finalization
