### **2. Approve Leadership Team Minutes from July 9, 2019:**

Minutes approved by a unanimous voice vote.

### **3. Paul Kilzer from South 39<sup>th</sup> Leadership Team:**

Paul discussed the deer issues faced by his neighborhood, some articles that had appeared in the Missoulian regarding the issue, and what he had heard/read from other Neighborhood Councils. He is working on applying for an NPF large grant to hire someone or a group to study the deer population problem. After some discussion, it was approved by a unanimous vote to write a letter in support of the grant to be signed by one or all of the Leadership Team members present.

### **4. PJ Delhomme Whitaker Park Update:**

PJ discussed applying for an NPF large grant for a nature-based playground area at Whitaker Park. He had been working with the Parks Department and was putting together a projected budget. The one unknown was whether the approach to the playground needed to be ADA-compliant. After a brief discussion, it was approved by a unanimous vote to approve applying for the grant as long as ADA-compliance was not required.

### **5. Budget and expenditures report for Farviews-Pattee Canyon Neighborhood Council:**

Julie Aldegarie noted that the Farviews-Pattee Canyon neighborhood Council fund balance was \$715.44 \$799.56 as of the current date. There was some discussion of the cost of printing and mailing general meeting notification postcards, and the general consensus is that the postcard cost was worth it. Karen also stated that because less than 50% of the Council budgeted funds remained, the Council LT could apply for reallocated funds.

### **6. Public Comment about items not on agenda: None.**

The meeting was adjourned at 6:58 pm.
