## South 39th Neighborhood general meeting 04/28/10 7pm at Meadow Hill elementary

### On the agenda:

Survey our neighborhood for views for or against hands free cellular use in automobiles. Comments welcome.

Presentation on community gardens by Genevieve at Garden city harvest. We would like to discuss the possibility of adding another community garden in our neighborhood. There are many of our neighbors who do not have the ability to create their own garden. They may be renters or simply need help starting a garden. Not only do these gardens provide people a way to grow their own vegetables, spices, etc they promote a sense of community within our neighborhood.

Introduction for a large project in our neighborhood. The neighborhood council team will be seeking the approval for artistic painting of a few traffic boxes. You may have seen these all around town. Local artists have done a beautiful job painting their creations on these boxes. We would like to add that to our area.

Update on the Tonkin trail and the network of our system.

Round-about information. Some of you may travel Higgins avenue through the new round-about. There seems to be some confusion among drivers, how they should navigate and share the intersection. Typically we yield to the driver on the right, but in the case of the round-about you should yield to the driver on your left. Make sure you enter the round-about with enough room between you and the driver approaching on your left side.

Recycle your aluminum cans at any Animeals drop off. Just look for the recycle shed with the Animeals paw on the side, there are many locations around town. Some in our area are at Pattee Creek Market and Paradise Falls restaurant.

If the deer are feasting on your flowers and shrubs you can purchase Deer Off to keep them from eating everything. This is non toxic and won't harm the environment. The smell of the spray will keep the deer from eating your flowers.

Please come to the meeting 04/28/10 at 7pm. We welcome your input and all comments. See you then.  
Your neighborhood team members,  
Jeff 251-3420 240-3889
