13. Connecting with City Council Members – 4 Votes

Background

- Met with CTA and got a quote (is this solar?)
 - Have met with Donna
 - You have submitted a formal letter stating it as your #1 priority for the neighborhood
 - That was well received
 - They agreed to submit for funding and look for funders/grants
 - Nancy Rittel has also been contacted
 - Anything else?
-
- What do you envision? What are your goals? What is your timeline?
-
- Anything else? Notes:

This can be done at it's highest level

- Talked with Kevin Slovarp and there doesn't appear to be any regulation or code that would disallow it
- At a quick Google search there are products out there and case studies
 - Note: They may have to fit a [NWE spec for rebates](#)
 - Check out the [Solid State Lighting Consortium \(DOE\)](#)
- It has been done on a parking lot at the [County Development Park](#)
 - I could put you in contact with them
- The [Art Park](#) project downtown is also looking into this application at a smaller level
- Seems to mesh well with [CCAP](#), [Growth Policy](#), others
- Notes:

Suggestions/Next Steps

- Do lighting audit to explore NWE rebates to bring the cost down
 - This can be done for you. Alan Bronec: alanb@ctagroup.com (406)728-9522 x.1713
 - Process – project outline. Base case. Change case. Project cost. Economic analysis
- Explore [NWE Community Works Fund](#)
- Explore [DEQ Revolving Loan Fund](#)
- Explore [City of Missoula Neighborhood Grants](#)
- [Special Improvement District \(SID\) – Lighting?](#)

- [Long Range Transportation Plan update](#) – activatemissoula.com – “Interactive Story Map”. Next meeting March/April
- [Community Development Block Grant](#)
- I can search for grants, funders, sponsors, pilot project prospects
