**Subject:** Higgins road diet

Hello council members,

Changing Higgins Ave from Broadway to 5th to three lanes is a terrible idea. Please do not do anything to reduce traffic flow through this area it is congested enough. Did we really just refurbish a four-lane bridge at great expense making it wider to drop the road to two lanes? Crazy. I do not know any members of the general public who were involved in the Downtown Master Plan process. Survey your constituents about their thoughts on downsizing Higgins. Most people will shake their heads. Bike and ped safety can be provided with better intersections, sidewalks, and designated bike routes off of this main thoroughfare. Time to reevaluate.
