Minutes for November 16, 2022 were approved as submitted.

Discussion with Cushing & Terrell about having them present their plan for the Hillview Development subdivision project at a general neighborhood meeting in March. Week of Feb. 27, or March 6 and possibly meet at the fairgrounds. Kalina will reach out to get a final decision. We want to advertise it as an informational session to members. We should have a prepared avenue to send people that want to give feedback. Talk to City Council reps during the public meeting. We can give feedback during our City Forum

Kalina mentioned the April spring clean-up. We are planning on finalizing details for the cleanup at the February leadership meeting so we can advertise at the March general meeting.

The group discussed the neighborhood survey that we plan to send out. Zac will send out the updated survey format to the leadership team.

Kalina gave an update that the City code compliance officers reached out about snow shoveling, and volunteers are needed.

Dave and Kalina gave an update on the Community Forum.

Kalina asked for volunteers to help score the grant applications.

Meeting adjourned at 7:15 pm.
