Subject: Ice dam in front of fire station 2 on Mount and Park

I have lived next to the Fire Station at 243 Mount Ave for 37 years.

When the Fire Station addition was created

the fire engine driveway and sidewalk were badly designed, so that melting ice does not drain into the corner sewer.

As a result every year at this time the sidewalk becomes covered with a huge, deep dangerous ice cover.

The Firemen try to deal with this mess but are unable to fix it.

Mount Street has sidewalk traffic from children going to and from Paxson School.

I urge you to come by and look at this hazzard and let us know what can be done to really fix it.

Thank you,

Jo Ann Bernofsky
