Subject: rezone the riverside of historic Fort Missoula for commercial enterprises

Hi, All.

I'm writing in opposition to the proposal to rezone a portion of Missoula grounds to commercial and residential, with 16 multi-story town homes on the river side. That's not how that historic area should go. This historic open space should remain just that.

Please don't let the development happen.

Thank you.

Subject: Save History and Lands

Please keep current Fort zoning and save historic Fort grounds and open space. Please do not bulild on the Fort historic grounds. Please

There are grants, tax credits and community wanting to help. Take future generations into consideration....

Carolyn Buckallew

Subject: Homeless problem Grant Creek

Hello, I have been a resident of this city for 61 years and a homeowner in Grant Creek for 22 years. Coming home from work this morning , I see the homeless camp is starting near your new trail at the bottom of Grant Creek near Town Pump. It's not even summer and we have a problem. Run down trailers and junk parked. What an eyesore. Less than a mile from the Prospect subdivision in which residents pay dearly on property taxes. This needs to stop now. The residents of Grant Creek have put up with your new housing near RMEF and now we have to put up with the homeless? Whats going to happen when these people work their way up the creek and into our neighborhoods? On top of that, who is going to use your new trail when all this junk is parked next to the trail head? This needs to be nipped in the bud ASAP. Most of us in Prospect adhere to our neighborhood bi laws and maintain our yards, our property and our houses. With this problem down the street starting you will hear from more and more taxpayers over this. Take care of it now. Good Day .
