Program Category:	Project Title:			08 Project #	09 Project #	10 Project #
Community Service	Central Maintenance Facility Landscaping			PR-22	CS-24	CS-11

Description and justification of project and funding sources:

Funding this project will provide landscaping around the Central Maintenance (Street Division) building. The grounds and islands around the Street Division building currently do not have irrigation or landscaping. These weed beds have become a source of concern to neighboring residence and businesses. This project will include irrigation, top soil, trees, grass, tree bark, and labor for installation.

Is this equipment prioritized on an equipment replacement schedule?

CENTRAL MAINTENANCE FACILITY LANDSCAPING COST AND BENEFIT CONCERNS

ORDINANCE The irrigation and landscaping at the Central Maintenance Facility has been held pending the DEQ's release to begin work. Completion of this project will enable us to be in compliance with the original OPG approved design, plan, and ordinance.

GREEN CITY The City of Missoula is all about maintaining and developing a healthy, livable, green community. This project is an excellent place to start. Funding this project fits into the strategic plan strategies for clean air, water and open space. This project will reduce dust, soil erosion, and the spread of noxious weeds.

ASSET PRESERVATION Funding this project will improve the appearance of the Street Division parking lots and yards. Additionally, proper landscaping will reduce water damage to the building and parking structures. People tend to respect a clean well groomed facility and are less likely to trash or vandalize it.
