Summary Description and rationale of project and funding sources:							
<p>A permanent vault restroom with a water and sanitation connection is desired at the upper Greenough Park parking area as it would provide for year-round service (this would require electrical service, sewer connection and water connection) to support trail, shelter and playground use at the park. Water service connection is anticipated to be available from Jackson street with sanitation available within the east Monroe street ROW. Sacajawea Park's proposed restroom would be a seasonal portable toilet placed on a concrete pad inside a port-o-let shelter sited for safety and visibility to and from the street, playground, and splash pad. A portable restroom is needed to meet health code requirements for splash deck operation - the most popular feature in the park. Approved funding will be used to develop Sacajawea and Greenough Park restroom improvements.</p>							
History & Current Status: Impact if Cancelled or Delayed							
<p>Sacajawea and Greenough park restroom projects are in need of updates/replacement as current facilities no longer serve residents. Greenough Park restrooms were destroyed by a downed tree approximately 11 years ago. Park Users have been served in the interim with a portable toilet that is seasonally available from April through mid-October. Estimated costs to complete utility connections for a flush restroom at Greenough Park have guided the project toward a CXT (sealed Privy restroom).</p> <p>Sacajawea Restroom was updated with seasonal portable toilet placed on a concrete pad with a port-o-let enclosure in 2024. After restroom improvements were complete, staff removed the original restrooms as they were no longer in service. Greenough park restroom is anticipated to be completed in FY 26 at an estimated cost of \$120k. There is a balance of \$139k after completion of the Sacajawea park restroom improvements.</p>
