Summary Description and rationale of project and funding sources:									
Based on consultant recommendations for potential new feature upgrades to the facility as outlined in the Missoula Splash Montana Amenities Report completed in 2024. Parks is pursuing in order of priority upgrades that are within the existing footprint of the facility. These include in order of priority: 1) FY26 replacement of the existing spray feature/play structure in the pond and integrating a youth/toddler deck slide into the feature \$600K-\$750K. The bear deck slide will remain. 2) FY26 2-4 additional cabanas to support party program, (\$60-\$80K), 3) System wide Spray Deck improvements \$200K, 3) FY28 A new slide feature that would exit as a drop slide into the competitive 50-M pool, (\$300K). 4) FY28 Multi person flume slide that would require a new 30 ft tower and an expansion of facility footprint (\$1.5M).									
History & Current Status: Impact if Cancelled or Delayed									
Splash Montana is an existing facility that has an established market. The Primary Service Area is large enough to support Splash Montana and is enhanced by a much larger population in the Secondary Service Area. The demographic characteristics show a younger population, which participates in swimming at a higher rate, especially at outdoor pools. There is a high rate of participation in swimming activities. Upgrades to the facility keep the facility relevant and inspiring to both new residents and individuals and families that have been in the Missoula area. Investing in Missoula's premiere aquatics facility is an investment in community building.
