	Leverage	Engineering	Is the project APPROVED for Fiscal Year 2026?		FUNDING?			
Summary Description and rationale of project and funding sources:								
<p>Project will extend Johnson Street from South Avenue to McDonald Avenue between Southgate Mall parking and the Bitterroot rail line. Improvements include complete street elements such as sidewalks, boulevards, curb, gutter, and street reconstruction. This project will support critical development in the area, including the property acquired by the City of Missoula south of the mall, transit service access, and alleviating congestion along South Ave. It is anticipated that this project will be funded through a 50/50 split between MRA and Impact Fees.</p>								
History & Current Status: Impact if Cancelled or Delayed								
<p>This project was identified in the Long-Range Transportation Plan to support transportation connectivity and growth, and was further identified as important infrastructure in the Midtown Master Plan. If the project is cancelled or delayed, it may affect traffic congestion, future transit service changes, and access to important areas of redevelopment and new growth. At the time of this Budget Request, there has been no survey or preliminary engineering done and this estimate is a budgetary place holder and may need to be modified in the future.</p>
