Project Rating	Department		Yes	No		
Required	Public Works		Is the project APPROVED for Fiscal Year 2026?		FUNDING?	

Summary Description and rationale of project and funding sources:
The wastewater utility has a significant quantity of 100+ year old sewer pipe and there has not been a rehabilitation or replacement program in many years. The recently completed facilities plan has recommended a replacement program of 1.3% per year of sewer pipe, or approximately 4.4 miles per year. This will require ramping up to over \$9 million per year in capital spending on sewer main rehabilitation. The FY26 spending will focus on prioritizing, selecting and designing sewer mains for rehabilitation in future years, as well as on coordinating State Revolving Fund loans to finance the improvements. The project will also involve spot repairs to some known areas of structural failure (Lincoln Hills and Brooks/Reserve area)
