Request Rating	Required			
Department Goal	Create efficiency for staff and better customer portal.	# of FTE's in this request		
1. How will request assist in achieving Department Goal and benefit the customer				
Replacement of our Customer Information System (CIS) to a new utility billing software. We advertised an RFP and have selected a new billing software that will create efficiencies and enhance customer service. We have narrowed our selection from 15 to 2 and are working through which option will work the best for our needs. Regardless of which option we choose our annual costs will be less than or equal to what we are currently paying for this service, therefore this is not an increase to ongoing baseline costs. On the high end we will spend \$190,000 per year and we are currently spending around \$288,000 per year for the software, tickets, and processing fees.				

2. What specifically is needed to achieve this goal?
We need to contract with the selected vendor to begin the 6-12 month process of transitioning to the new software.
