City of Missoula CIP Project Request/Update Form FY 2026 - 2030

Department Priority		New or Update	Required	Delay	Project Title		
6	of 8	Update	Is this project Required?	Can project be delayed?	Water System SCADA Improvements		
Project Rating	Department		Yes	Yes			
	Public Works						
Required	Water	Is the project APPROVED for Fiscal Year 2026?				FUNDED?	

Summary Description and rationale of project and funding sources

Missoula Water's Supervisory Control and Data Acquisition (SCADA) system has many components that are obsolete and no longer being supported by the manufacturer. These include Programmable Logic Controllers (PLC's) at more than 85 well, booster and storage facilities. The replacement of PLC's is anticipated to cost in the range of \$2 million, which will be accomplished over approximately a 10-year period. The system's ethernet radios are also obsolete and will need to be replaced.. The proposed budget for this project is \$250,000 per year starting in Fy25 and increasing 5% per year to account for inflation. These improvements will be funded using enterprise funds.

History & Current Status: Impact if Cancelled or Delayed

Missoula Water began its SCADA replacement project with implementation of two new SCADA servers and new SCADA software in 2024. FY25 funds budgeted will be used to replace the first 5 PLCs which will provide a template for replacing the remaining PLCs.

Are there any site requirements/ Potentially Affected Interest (PAI) Coordination:

How is this project going to be funded?

Funding Source	How is this project going to be funded?					
	Prior Years Funding	Yr. 1. budget	Unappropriated subsequent years			
		FY2026	FY2027	FY2028	FY2029	FY2030
Water		250,000	262,500	275,625	289,406	303,877
R E V E N U						

Impact Fees

Impact Fees

Type	Approval	Date	Amount	Amounts
