2024 "People's Choice" Winner

Included in this guidebook are the historical figures whose stories will be recounted during this year's event as well as the name of the storyteller. Brief summaries of the person's life are provided for most but not all presentations.

The City of Missoula acknowledges that the Missoula Valley is the ancestral land of the Séliš (Salish or "Flathead") and Qlispé (Kalispel or "Pend d'Oreille") Nations and was and is a place also utilized by other Indigenous peoples, who settlers forced from the area under the direction of the U.S. government. The history provided in this guidebook by no means lessens the importance of these Indigenous peoples or the impact on them but tells the stories of those who created, are interred in, or are connected to the Missoula City Cemetery.
